### Fairgrounds to Care Grounds

The Southern California Fairgrounds and Events Center Opens as the Fourth COVID-19 Testing Site in Riverside County

Perris, Calif. - The Southern California Fairgrounds & Events Center is dedicated to serving its community whether it be for entertainment, recreation or in time of need. In response to the COVID-19 pandemic, the SoCal Fair is fortunate to be able to open its Fairgrounds and Events Center for the fourth COVID-19 testing site in Riverside County.

The testing site is located at 18700 Lake Perris Drive in Perris, California and is scheduled to open on Tuesday, April 14. It welcomes those who have experienced symptoms or exposure for drive-up testing daily by appointment only.

“We are very proud to offer the Perris Fairground parking lots to serve the community in this new way and help our public health officials in this time of need. This additional testing location will help ensure those who have symptoms can get tested,” says Southern California Fair Board Member, Tricia Almiron.

The SoCal Fair has always been committed to uniting the community. We are pleased to be able to continue supporting our beloved community with our facilities so that we can overcome this pandemic stronger together and be ready to gather for the 2020 SoCal Fair in October.

To schedule an appointment for testing, please call (800) 945-6171 or visit [www.projectbaseline.com/study/covid-19](http://www.projectbaseline.com/study/covid-19).
